

To: The Honorable Members of the Santa Rosa City Council

As residents of Sonoma County, we petition the Santa Rosa City Council to take the necessary action to remove the “No Bicycle” signs along the public right-of-way through the community of Wild Oak Villages.

Planning Commission Resolution 3915 conditioned the approval of the Wild Oak Subdivision development on providing bicycle access “via an improved easement paralleling the old railroad bed or in a location approved by the Department of Community Development.”

This pathway is a key east-west corridor linking Santa Rosa with cities and towns to the east. It allows safe and convenient passage to bicyclists as an alternative to State Route Highway 12.

Sincerely,

Signature	Print Name	Address	Phone
